The Juaneda Ciutadella Hospital is the new general healthcare center in Menorca of the Juaneda Hospitals group. In this center, we will have 38 hospital beds available to patients, 12 day hospital beds and 6 Intensive Care Unit (ICU) beds. The only 100% electric hospital. It avoids emissions into the atmosphere since it does not consume gas, and also has a park of solar panels on the roof, which can generate 50% of the energy it needs, with the aim of achieving energy self-sufficiency.
